NEGLECTED SCHOOL CHILDREN.

EDITOR MAUI NEWS,

"Being enthusiastic over the educational welfare of our children, and also being aware that education promotes both the moral and political developments of a community, I hereby ask your kind co-operation and that of all the citizens of Wailuku District to remedy the urgent necessity of a school house at Puunene."

"During a personal visit through Puunene I was amazed at the number of children, of school age, who are being neglected, and denied the education they are entitled to, as children of tax payers."

"The children are of different nationalities but the Portuguese predominate, and in some families there are seven and eight children of school age."

"Now the question is this; will those neglected children ever become good citizens and voters unless through education? I leave it to the public and Board of Education to decide."

The sports of the day will begin at ten o'clock, and continue without intermission save for lunch at noon, till the entire program is completed, so that there will be but few dull moments.

Prizes will be offered for all events. It is the desire of the management that so far as practicable those desiring to contest should make their entries with Mr. G. B. Henderson, Secretary of the P. A. A., at Puunene, either personally or by mail on or before Thursday, August 11.
